Car Keys

Car keys are one of the most well used items in your life and can sometimes fail. Did you know that losing these could cost you over £300 and its vital that you have a spare at all times.

Welcome 3D Group

We are a locally run family business with over 30 years of experience in the locksmith trade. We responded to a demand for a quality vehicle locksmith service to keep up with changes in technology over the past 12 years.

3D Group has been working alongside many vehicle dealerships, bodyshops, mechanics and breakdown recovery agents during this time. We work from a mobile van & from our workshop in Mapperley, Nottingham. Our mobile workshop covers approx. 25 miles radius from our shop in Mapperley.

Car Immobilisers

Immobilisers have been mandatory in all new cars sold in the United Kingdom since October 1998 and in Australia since 2001. In Canada, immobilisers are required in all cars assembled on or after September 1, 2007

Our Aim

We have been providing a high quality & low cost vehicle locksmith service for 12 years. This service includes supplying new spare keys & remote controls, replacing broken keys & even keys when all are lost or stolen. Our aim is to get you back on the road as swiftly as possible (Please note: this can be delayed due to retrieving important security information from the manufacturers of your vehicle).
